LIMITED GROWTH & FLOWERING GUARANTEE

Garden State Bulb Co. (GSB) products have been grown with the utmost care and are of excellent quality. In order to obtain the desired end result, it is important that the instructions on our site and/or the accompanying (plant) instructions are followed. Given that we work with a natural product; we offer a 1 Year Limited Growth and Flowering Guarantee.

Garden State Bulb's obligation under this Guarantee is limited to troubleshooting, replacing the product, missing pieces or providing a gift certificate at Garden State Bulb's discretion. All products for which a Guarantee claim is made must be received by GSB and accompanied by sufficient proof of purchase (emailed or original physical store receipt, indicating the date of purchase).

This Guarantee does NOT cover improper handling, storing, weathering, failure to follow directions, improper care, improper maintenance, or acts of nature, (such as damage caused by wind, lightning, snow, water, or ice), or damage caused by improper use of the products are not covered by the product warranty. No other guarantee beyond that specifically set forth above is authorized by Garden State Bulb Co.

LIGHT	Full Sun to Partial Shade
SPACING	4" to 6" apart, (3 per sq. ft.)
DEPTH	Plant 8" deep
MATURE HEIGHT	32" to 40" tall
BENEFITS	Great Cut Flowers

Soil Preparation

**Great gardens start with great soil!
Soil preparation is essential for successful gardening.**

Healthy soil should have good tilth, nutrient content, and a viable population of beneficial microorganisms. We recommend using natural and organic ingredients to prepare the soil and maintain soil fertility. It is always a good idea to have a soil test to identify your soil type (sandy, loam, silt, clay) and find out your soil pH.

NOTE: It is important to store correctly until planting. Store in a cool, dry place with plenty of air circulation. Plant in spring as soon as ground has thawed and soil has warmed to 50°F and is workable. Usually 4-6 weeks after the last frost.

Lily Planting Instructions

- 1 Plant lily bulbs in the spring after the ground has thawed and there is no longer danger of frost.
- 2 Choose a location with well-drained soil. Loosen soil prior to planting.
- 3 Dig a hole in loosened soil 6-8" deep. Place the bulb in the hole with the roots down and pointed end facing up. If any sprouts are present plant them facing up. Space each bulb 6-8" apart.
- 4 After planting, water well so that the soil above the bulbs settles. Keep soil moist during periods of dry weather but do not overwater.

About Lilies

Garden State Bulb Lily Pink Flight Flower Bulbs are imported directly from our farms and growers in Holland. These bulbs are 5.5 to 6 inches (14/16cm) in size and carefully checked for quality before shipment. Pink Flight Asiatic Lilies, also known as tiger lilies, look like hummingbirds surrounding a feeder in gorgeous arrays of coral pink. This fragrant mixture is taller and a bit more open than most Asiatic lilies, which will make a bold statement in any garden! Pink Flight Lilies grow 3 to 4 feet tall and grow best in moist, well drained soil. They attract butterflies, hummingbirds and also grow well in containers for a beautiful porch or patio!

CONTACT US

FREQUENTLY ASKED QUESTIONS

Q. When should you plant spring bulbs?

A. Spring planted/summer flowering bulbs and tubers can be planted in the spring when you are certain the ground will no longer freeze in your area.

Q. What other flowers can you plant with Asiatic Lilies?

A. Peonies, poppies, phlox, and daylilies all combine well with Asiatic lily flowers.

Q. How long do Asiatic Lilies bloom for?

A. Asiatic lilies bloom up to 1 month long.
